ORIGINAL CONCEPT IMAGE OF DECK FEATURE

COMPLETED GREY IRONBARK DECK FEATURE

AUS-I-FLOW - 140 X 36 IRONBARK DECK

AUSTIMBER WORKED WITH THE LANDSCAPE ARCHITECTS (TBLD) AND PARKS VICTORIA TO DESIGN THE FIXING AND CONSTRUCTION METHODS PRIOR TO TENDERING FOR CONSTRUCTION

AUSTIMBER DID A TAKE-OFF OF REQUIRED LENGTHS, CUT ALL TIMBER TO LENGTH FOR MINIMUM WASTE AND THEN KILN DRIED THE GREY IRONBARK TIMBER 6 MONTHS IN ADVANCE TO REQUIRING ON SITE .

ONCE THE CONTRACT WAS LET, WE LIASED WITH THE CONSTRUCTION CONTRACTOR TO DOUBLE CHECK ALL MEASUREMENTS

TIMBER WAS MACHINED FRESH ONLY THE WEEK BEFORE NEEDED ON SITE!

TIMBER WAS THEN PACKED AND LABELLED FOR EACH DIFFERENT DECK SECTION AND DELIVERED DIRECT FROM OUR BOX HILL (SYDNEY) YARD TO APOLLO BAY READY FOR IMMEDIATE INSTALLATION – KEEPING BOTH, SITE DAMAGE AND HANDLING ON SITE TO A MINIMUM
